

FAQ's Seniors

What can I bring for my session?

You can bring anything and everything that you want! Whether it's band equipment, boyfriends/girlfriends, pets or cheerleading gear, we encourage you to bring whatever reflects your unique personality. Some unique things that have been brought by seniors in the past are: cars, guitars, hunting gear, drum sets, purses, shoes, LSU gear, sports uniforms, golf clubs, dogs, unique pieces of art: Just to name a few!

Does anyone have to come with me to my session?

No, no one has to come with you but we do like it when someone comes with you. A friend or a family member knows you best and how you like your hair, clothes, etc. And usually, when you bring someone with you, you tend to loosen up, relax and have more fun.

Do I have to take cap and gown and drape/tux?

No, you do not have to take cap and gown and drape/tux. Most schools require that you use a certain photographer for the yearbook picture and this is usually drape/tux or cap and gown. So, if you do not want to take it again with us, you do not have to.

How will I get to see my images?

We put your images in a custom made, spiral bound proofbook. Your proofbook will have a completely personalized cover and will have all of your images in it. You can take this book, show it to everyone and not worry about losing proofs!

What is the best time of year to come in to take my senior pictures?

Ideally, the summer before your senior year begins is a great time to come in. You can beat the rush and get it over with! This gives you plenty of time to get exactly what you want. Your senior year is jam-packed full of events and time will certainly slip by quickly. If you get your senior pictures out of the way early, this is just one less thing to worry about when graduation time comes around.

What should I wear?

Wear whatever you want! Your senior pictures should reflect your personality and style.
